Despite the universally known tenor of "Deroocratic" platforms of late years, and the numerous votes of that party in Congress against Harbors and Rivers—despite the vete of one bill by a Democratic President—despite the nomination by that party of candidates for President and Vice President, whose invariable course in Congress has been against all River and Harbor bills-the Western Democratic papers will insist that theirs is the party for the West, and that their candidates are the men for the West .- Proof after proof is daily adduced to the contrary, but still they will endeavor to deceive the people. It is well that our people are intelligent; and read for themselves. All that they have to do is to consult the record. to be satisfied of the facts in the case, endeaver to decieve the people. It is well that The vote on the 30th ult, on the Harbor and

River Bill in the lower House, presented an ad-marked eppertunity for our Democratic friends to show their hands—and they did it! That bill is shamefully mean in its amount of appropriations -the whole amount for all the harbors of this State being only \$33,000,-but the feeling of the members could be as well tested, on this bill as any other-better indeed, because the excuses of wastefulness, logrolling, &c., could not be urged against it. Now see the result!

Some two or three slight amendments made to the bill as reported, when Mr. Johnson (Loca) of Georgia, moved to lay it on the table. Lost: Yeas 72, Nays 104. The bill was then passed by the following vote:

Here, then, is another proof of the oft repeated statement which we have made that the Loco Foco party is dead against justice to the West, and against any sort of a system of internal improvemante. The House is overwhelmingly Loco, that party having about 140 members; yet after a large of seven months of the session, a bill appropriating some \$700,000 to repair the damage 8 or 10 years to Western harbors, and to clear out thousands of miles of rivers, can get, by hard drumming, only Forry one (!) votes out of the whole 140.

Will the people remember this when they find -as they doubtless will find-the Loco Foco press of the West claiming credit for the passage of the Harbor Bill through the House of Representa-

the Whigs and a few of the Democrats to put the

bill through, the the same course will be tried against it which killed the last bill-Since, however, Messes, Cass and Douglas, who

were so active on that occasion in the murder have nothing at present to gain by opposition, it is likely to get through. We notice that Senafor Doog's from this State, gave those gentlemen a sharp rap over the knuckles, by war who commenced their opposition to the bill the moment it made its appearance in Senate, that on hill had been killed by tactics, but this one would not be. The friends of the bill were now prepared for any struggle or move of that sort which might be commenced."

Honor to Gov. Dodge, and the representative in the House from this State. They stand in diteet opposition to the creed, and to the tast majority of their fellow members of the Democrati party, but they are right.

We await, with interest the result in the Senate. Mr. Kino, the Democratic candidate for Vice President, is in the chair, and will doubtless lead willing aid to any manocuvres against the bill. but we hope for the best.

Ma. CLAY AND GEN. SCOTT .- MAJOR WARD, the Whis nomines for Governor of Florida, mentionad in the recent Whig Convention of that State, that while he was at the North, during the sitting

Another " Reliable ally" for England.

The last Buffalo Courier makes much ado over another "bolter" it has discovered among "the nominations a prominent men of the Whig party"—the bolting. Court, says: we suppose, being the circumstance that makes we suppose, being the circumstance that makes them "prominent." In this last instance, however, the individual named had some pretenaions to high rank in the Whig party, being no less a erson than Gen. WADDY THOMPSON of South Carolina. This gentleman, at a recent "demo-cratic" meeting in the Palmetto State—that delightful embodiment of gonuine "democracy"— thus proclaimed the reasons which induced him to lesert the banner of Winfing Scorr and enlist

under the colors of Franklin Pierce:

Gen, Waddy Thompson said that, being a member of the whig party, it was perhaps not proper that he should address the meeting, but that he could not forbear paying a tribete to the worth of Gen. Pierce's private and public character, and his faithfulness to the rights of the South and the whole of the country. He said that he admired Gen. Scott above most men he had known; spoke of their intimate acquaintence, the parity of his life, and his social and moral virtues; but that he feared that he (Scott) had been seduced within the influence of northern men who were bostile to the south, its interests and institution; and he could not subscribe to the internal improvement and tariff features of the whig platform.

These reasons are frankly etated. Gen. Thompunder the colors of Franklin Pierce:

These reasons are frankly stated. Gen. Thompox endurses Mr. Pirror as faighful above all sings to the South, and repudiates the Whig candidates because he suspects them of being inimical to Slavery, and knows that they are in fa-FOR OF HOME INDUSTRY BUIL HARBOR AND RIVER IMPROVEMENTS. There is no denying what Gen Thompson says about Mr. Pie on's "faithfulness" o the South, and no doubt that Internal Improveents and the Tariff are prominent features of the Whig Platform. Neither is there any question that Mr. Pierce, if elected, would prove as "reliable" a friend to the peculiar interests of the South, as he is a "valuable practical ally to the commercial policy of England." Mr. Thompson, therefore, who "cottons" to England, and is death pon Northern Laborand Weslern Improvements, follows a natural bent in declaring for Prence and Kixe. It is a little unlucky, however, that he can't help these goutlemen to the vote of that exceedingly Democratic State, South Carolina. We rather think it was already secure for the "commercial ally" of England.

Judges of the Supreme Court.

The result of the Democratic State Judicial Convention has given a fresh impulse to the rising popular sentiment in favor of an Independent Ticket for Judges of the Supreme Court, and dready the names of some of our best lawyers are freely mentioned in connection with this subject So far as we can learn from private report, and the tone of the public press, there is an almost universal expression, in every quarter of the State, in favor of EDWARD V. WHITON, of Rock County, for the Chief Justice - It would certainly be impossible to find, within the limits of Wisconsin, a gantleman better qualified to fill this responsible post, an one whose election would be more acceptable to the People and more creditable to the State. We have noticed, within a few days, in the Kenosha Telegraph (democratic) and the Green Bay Spectator and Dodge County Gazette, (Whig) articles strongly recommending Mr. WHITon as a fit candidate for this station; and we hear the same opinion expressed, on all sides and among all parties in this city. We assume, therefore, that without any formal call, or the empty ceremony of a party nomination, Enwam V. Whites will be generally voted for by the People of this State, as a candidate for Cruse Justice, and we venture to predict that he will be elected by an

overwhelming majority. As to Associate Judges we hear of quite a num ber of candidates suggested. The Dodge County Gazette names Marshar M. Strone, of Racine, and N. P. TALLMADGE, of Fond du Lac. The Green Bay Speciator proposes Judga Hown. The present distinguished Representative from the Northern District, JAMES DUANE DOTY, is very carnestly and generally pressed, and would make strong candidate, as well as an able Judge. In this quarter, Mr. Francis RANDALL and Mr. James S. Brown, both highly respectable gen-clemen and excellent lawyers, are named as soitable candidates. Doubtless there are others, copy below, it will be seen that some of the whose names have not yet reached us, as well in manner in the affirmative are omitted. We foot this as in other sections of the State, to be added this as in other sections of the State, to be added to this list. From among the number, two candidates can readily be selected, whose names with that of Chief Justice WRITON, would form a ricket, unexceptionable in character and not easily surpassed, or equalled in ability, even in the oldest States of the Union. Such a ticket would come before the People under the happiest auspices and would, we do not at all doubt, obtain the support of a very large majority of the Electors of Wisconsin.

The Whig had an idea of what has since proved true, viz: that the Locos would make it a matter of reproach to Scott that he was wounded on the battle field by the enemies of his country, so that he was obliged to be borne from the scene of his glorious deeds by his faithful soldiers.

Similia similibus curantur,-and on this principle, the small fry free trade politicians mean ow to fire British gold at Scott, because he favors American interests now, as he fought for them

The Sontinel still persists in that illiberal nativeism of trying to excite prejudice against Gen Pierce—because journals edited by foreigness speak favorably of the man. It does not require a moment to perceive that this is the most illiberal kind of nativeism.—Wisconsin.

The Madison Democrat, in noticing the diminary proceedings of the recent State Judicial Convention, takes occasion to say :

The importance of a good strong ticket, is ne-knowledged by nil—such a ticket as would give to the country an earnest of the honesty and discretion of the party, and would be no drag upon the Pre-sidential election which immediately follows.

The Democrat adds the expression of its confideuce that the Convention would nominate such ticket. We wait, with some curiosity, to see if it still adheres to this opinion.

The Wisconsin, noticing Col. Benton' election to Congress over the regular Democratic and Whig nominec, says that his "triumph is the more gratifying in asmuch as the St. Louis Republican, a leading Scorr journal," abused Col. We do not think, however, that the ticket, as a built whole, will strongthen the confidence of the per ple in party nominations. About Harbor Bills.

The Whigs may talk about opposition, but the fault lies as much with them as with any others. No sooner does a bill come before Congress for necessary public improvement, than individual welfare must be taken into consideration, and the man who would sanction, by his vote or signature, such an unjust rubbery of the public treasury, must be either a knave or, ridiculously stupid. Hours Stuling. So the large majority of the "true democracy"

For instance, a day or two ago we published a few undentable facts in Gen. Scott's early history, among which were that he once, we twich, "bobbed" in duels, and that he withheld fwo month's pay from his soldiers, for which he was court-marshalled, and suspended a year.

PRESIDENT FILLMORE AND GEN. The following paragraphs are all suffic-

The approbation which that Convention expressed of the policy which I had pursued, in the resolutions which it adopted, was more gratifying to me than to have received the nomination.

I cannot doubt that Gen. Scott intends to carry out the principles of the Whig parry in good faith, if elected, and it seems to me that he is justly enritled to the support of every true Whig. I am, therefore, gratified to learn from your letter that you intend to give him a cordial and hearty support.

On both occasions 3, 1852 they had the power, had they chosen to exercise it, to abolish the test. Then was the time to make good their professions—to prove their faith by their works. Did they do it? No!instead of voting to abelish, they voted to retain the test, or lse, abstained from voting altogether. There were onny individual exceptions to this rule, but the mass of the Democratic party of New Hampshire acted as we have stated, and upon them rests the responsibility of retaining the test. It is only ecessary to contrast with this the course taken by the Whigs of North Carolina, under the lead of Gaston and Graham. A similar feature disgraced the Constitution of North Carolina, but by heir efforts and influence it was expunged. Whig North Carolina abolished the Test, while Democratic New Hampshire retains it. This is a fact which can neither be denied, nor explained away, and it settles the "Test" question.

The New Postage Law

At the late session of Congress, an important amendment was made to the law regulating the postage on newspapers. It will be found in our clumns this morning, and an examination of its provisions will show that it simplifies very much be calculation of the rates, and makes important eductions.

All printed matter, not over three ounces in weight, is to pass through the mails to any part of the United States at one cent, and one cent additional for each ounce or fraction of an ounce. If he postage is paid quarterly, or regularly, in adance, either at the place of mailing or delivery, the rate for the same weight is one half cent each

Newspapers which do not weigh over one onnce and a half, circulated in the state where published, are to be charged one half of the above rates, or one half of a cent each, if not paid in advance, and me quarter of a cent, if paid. Weekly newspapers pass free from the office of publication to subscribers within the county where

oublished. Transleut papers must be propaid, or will b charged double the foregoing rates.

The Datty, Triweerly, and Weeely Senti-

NEL, all come under an cunce and a half, when veighed dry. After the 30th of September, therefore, at which time the new law goes into operation, the rates of postage per annum on our severd issues will be as follows: Prepaid at office of mailing or delivery.

Daily, Tri-Weekly, Weekly, In Milwaukee Co., 78c 39c Free. 78c 39a In Wisconsin, Out of the State but } in the U.S., } 1,56 78e Not Prepaid Double the above rates.

Donne the above rates.

The thousand annoyances to which postmasters have been subjected under the present law, in calculating postage on newspapers, are thoroughly done away with, and the reduction is large, as will be seen by the table below giving the present rates on our various issues, prepaid : In Milwankee Co., 1.00 600

This charge and countercharge exhibits anything but a harmonious feeling among the Piere Democracy of New York. in the Evening Mirror:

When the lady first appeared in this city, a few years since, her faults were very glaring, and they were pointed our by the critics, in a spirit of kindness; for the germ of talent was strikingly apparent; and it was naturally a subject of regret, that it should be partially hidden under such deformities of style and manner. Greatly to her credit, she seems to have appreciated the spirit which dictated the criticism, and having adopted a course of improvement, which her own judgment approved, now comes forth brilliant in charms and talent, and with a fair promise of becoming, ere long, the greatest address on the American stage; it may be, the greatest the country has yet produced,

Very respectfully, your obedient servant.

The two great leaders of the Native American party in Philadelphis, in the days of its prime, were Peter Sken Smith and Lewis C. This preference of Mr. Sken Smith's is perfectly natural. It is strictly consistent with his avwed opinions. MILWAPKEE HARDON.—The Milwaukee Scaling rejoices, as every body about the lakes will, that the appropriation of \$15,000 for Milwaukee, fixed the Harbov at the straight cut. The piers should have been built there in the first place.—Cleveland

True enough; but although such has been the entiment of ninety-sine hundreths of our citi ens, and the unanimous judgment of our lake allors, and ship owners, for ten years past, it is only at this late day that we have succeeded in btaining an appropriation for the purpose. Now, awayer, we hope to see the work vigorously pros ecuted; and with the straight cut completed, Milvankee Harbor will compare advantageously with any on the lakes.

What has it that makes land valuable!—What made it every where valuable? Frominity to market; bringing the consumer to the side of the producer. The land of Belgium is of the highest value of my in the world, because there the consumer and producer are most completely inconnection with each other. That of France has more and more taken his place by the side of the producer. What destroys the value of land? The separation of the consumer has more and more taken his place by the side of the producer. What destroys the value of land? The separation of the consume rhom the producer for that is invarieby followed by exhaustion of the land, and its abandonment.
